Adopt a Feral Cat – Save a Life

Feral cats are unsocialized cats who were born outside without a lot of human contact. While these kitties do not want to curl up on your lap, they still love life and want a place to call home. Once in an animal control shelter, most feral cats are put down, because they would not make good house pets. But **you can adopt one or more cats to live outside on your property and save their lives!**

Additionally, for the price of daily cat food, they will keep your out-buildings or stable rodent free. And you'll have the great feeling of knowing that you saved a life!

We have several beautiful, healthy, neutered and vaccinated feral cats who are looking for outdoor homes with a barn, shed, or other shelter.

If you would like to adopt a barn cat (or several) contact **Nevada Humane Society**, e-mail info@nevadahumanesociety.org or phone 775-856-2000 ext. 336 (the Animal Help Desk).

Be prepared for a brief period of adjustment. Moving to a new home is stressful for anyone, cats included! After a short stay in secure confinement, the cats will accept their new home and be doing their rodent patrols with enthusiasm. Help will be provided during the relocation process.
