## Support Statement for G2Z

The National Animal Rescue Groups of Australia (NARGA) Inc wholly supports the objectives of the G2Z program which provides a whole community change model so that every community and municipality can achieve zero euthanasia of all healthy and treatable abandoned dogs and cats. G2Z is relevant to government departments, not for profits and community groups and advocates for change through collaboration and partnerships. For further information go to [www.g2z.org.au](http://www.g2z.org.au).

NARGA is a support group for the animal rescue community and aims to provide information, resources and support to member rescue groups, regardless of the species, breed or location. Our goal is to nurture their growth and effectiveness in a throwaway society as well as to improve communication and cooperation, working together towards the same goals. We have an opportunity to combine voices to present strong and viable options to all levels of government improving the lives of animals and their carers around Australia. Our motto is: Together we will make a difference.

We offer G2Z our support and look forward to working closely with them into the future.
